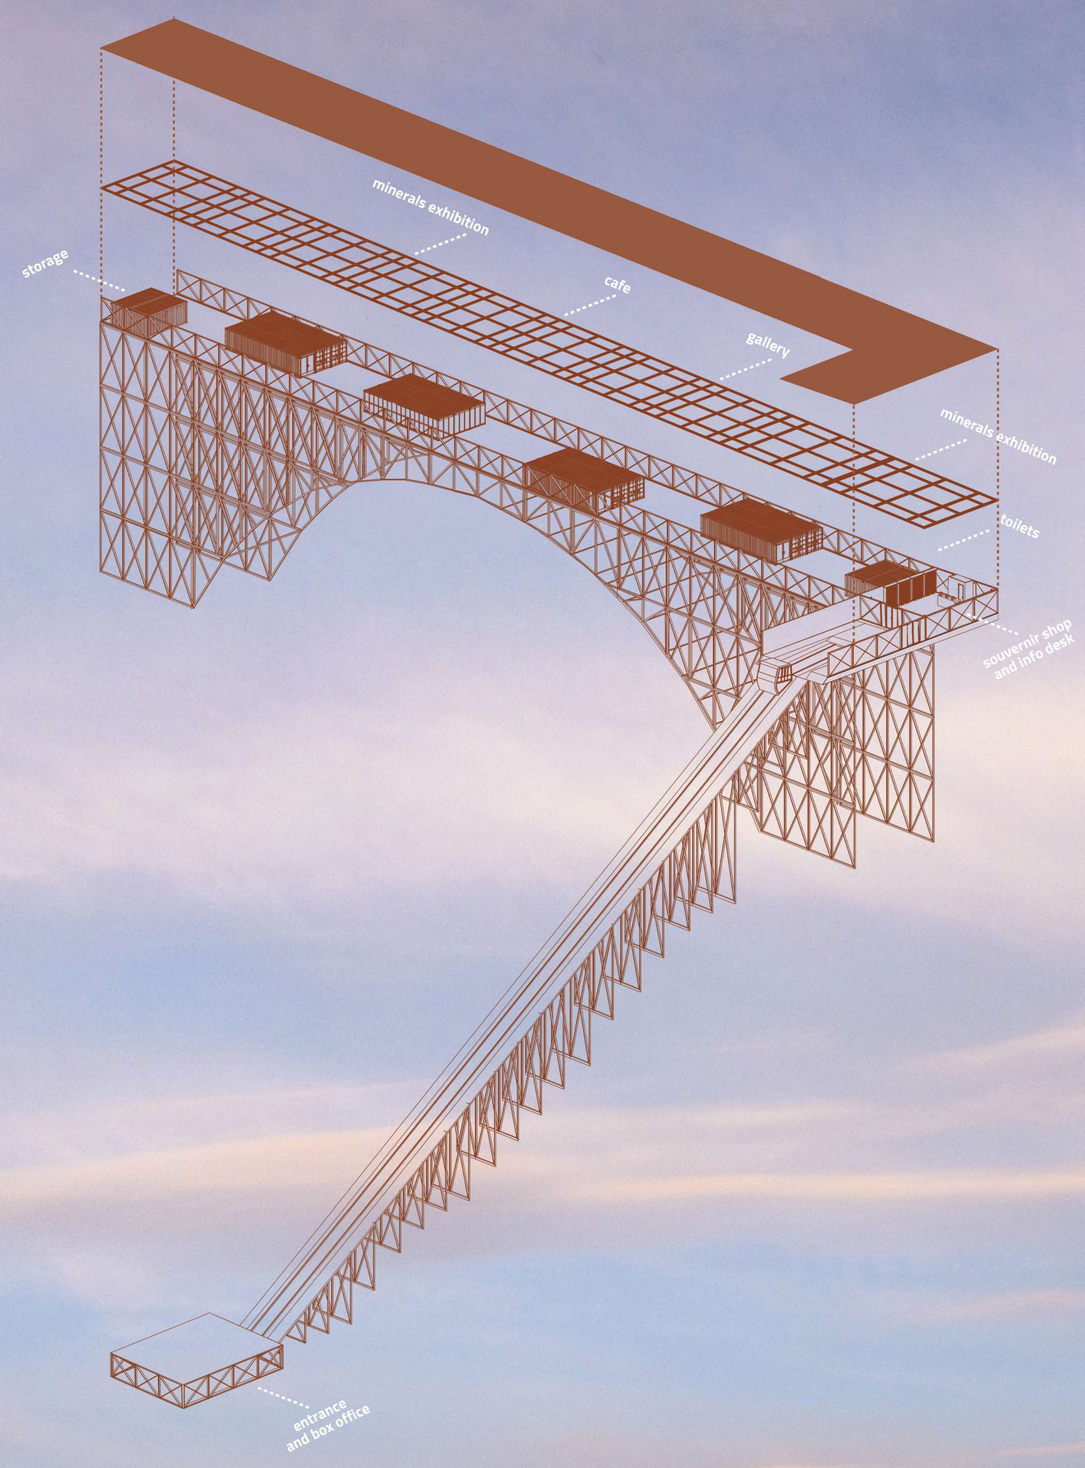
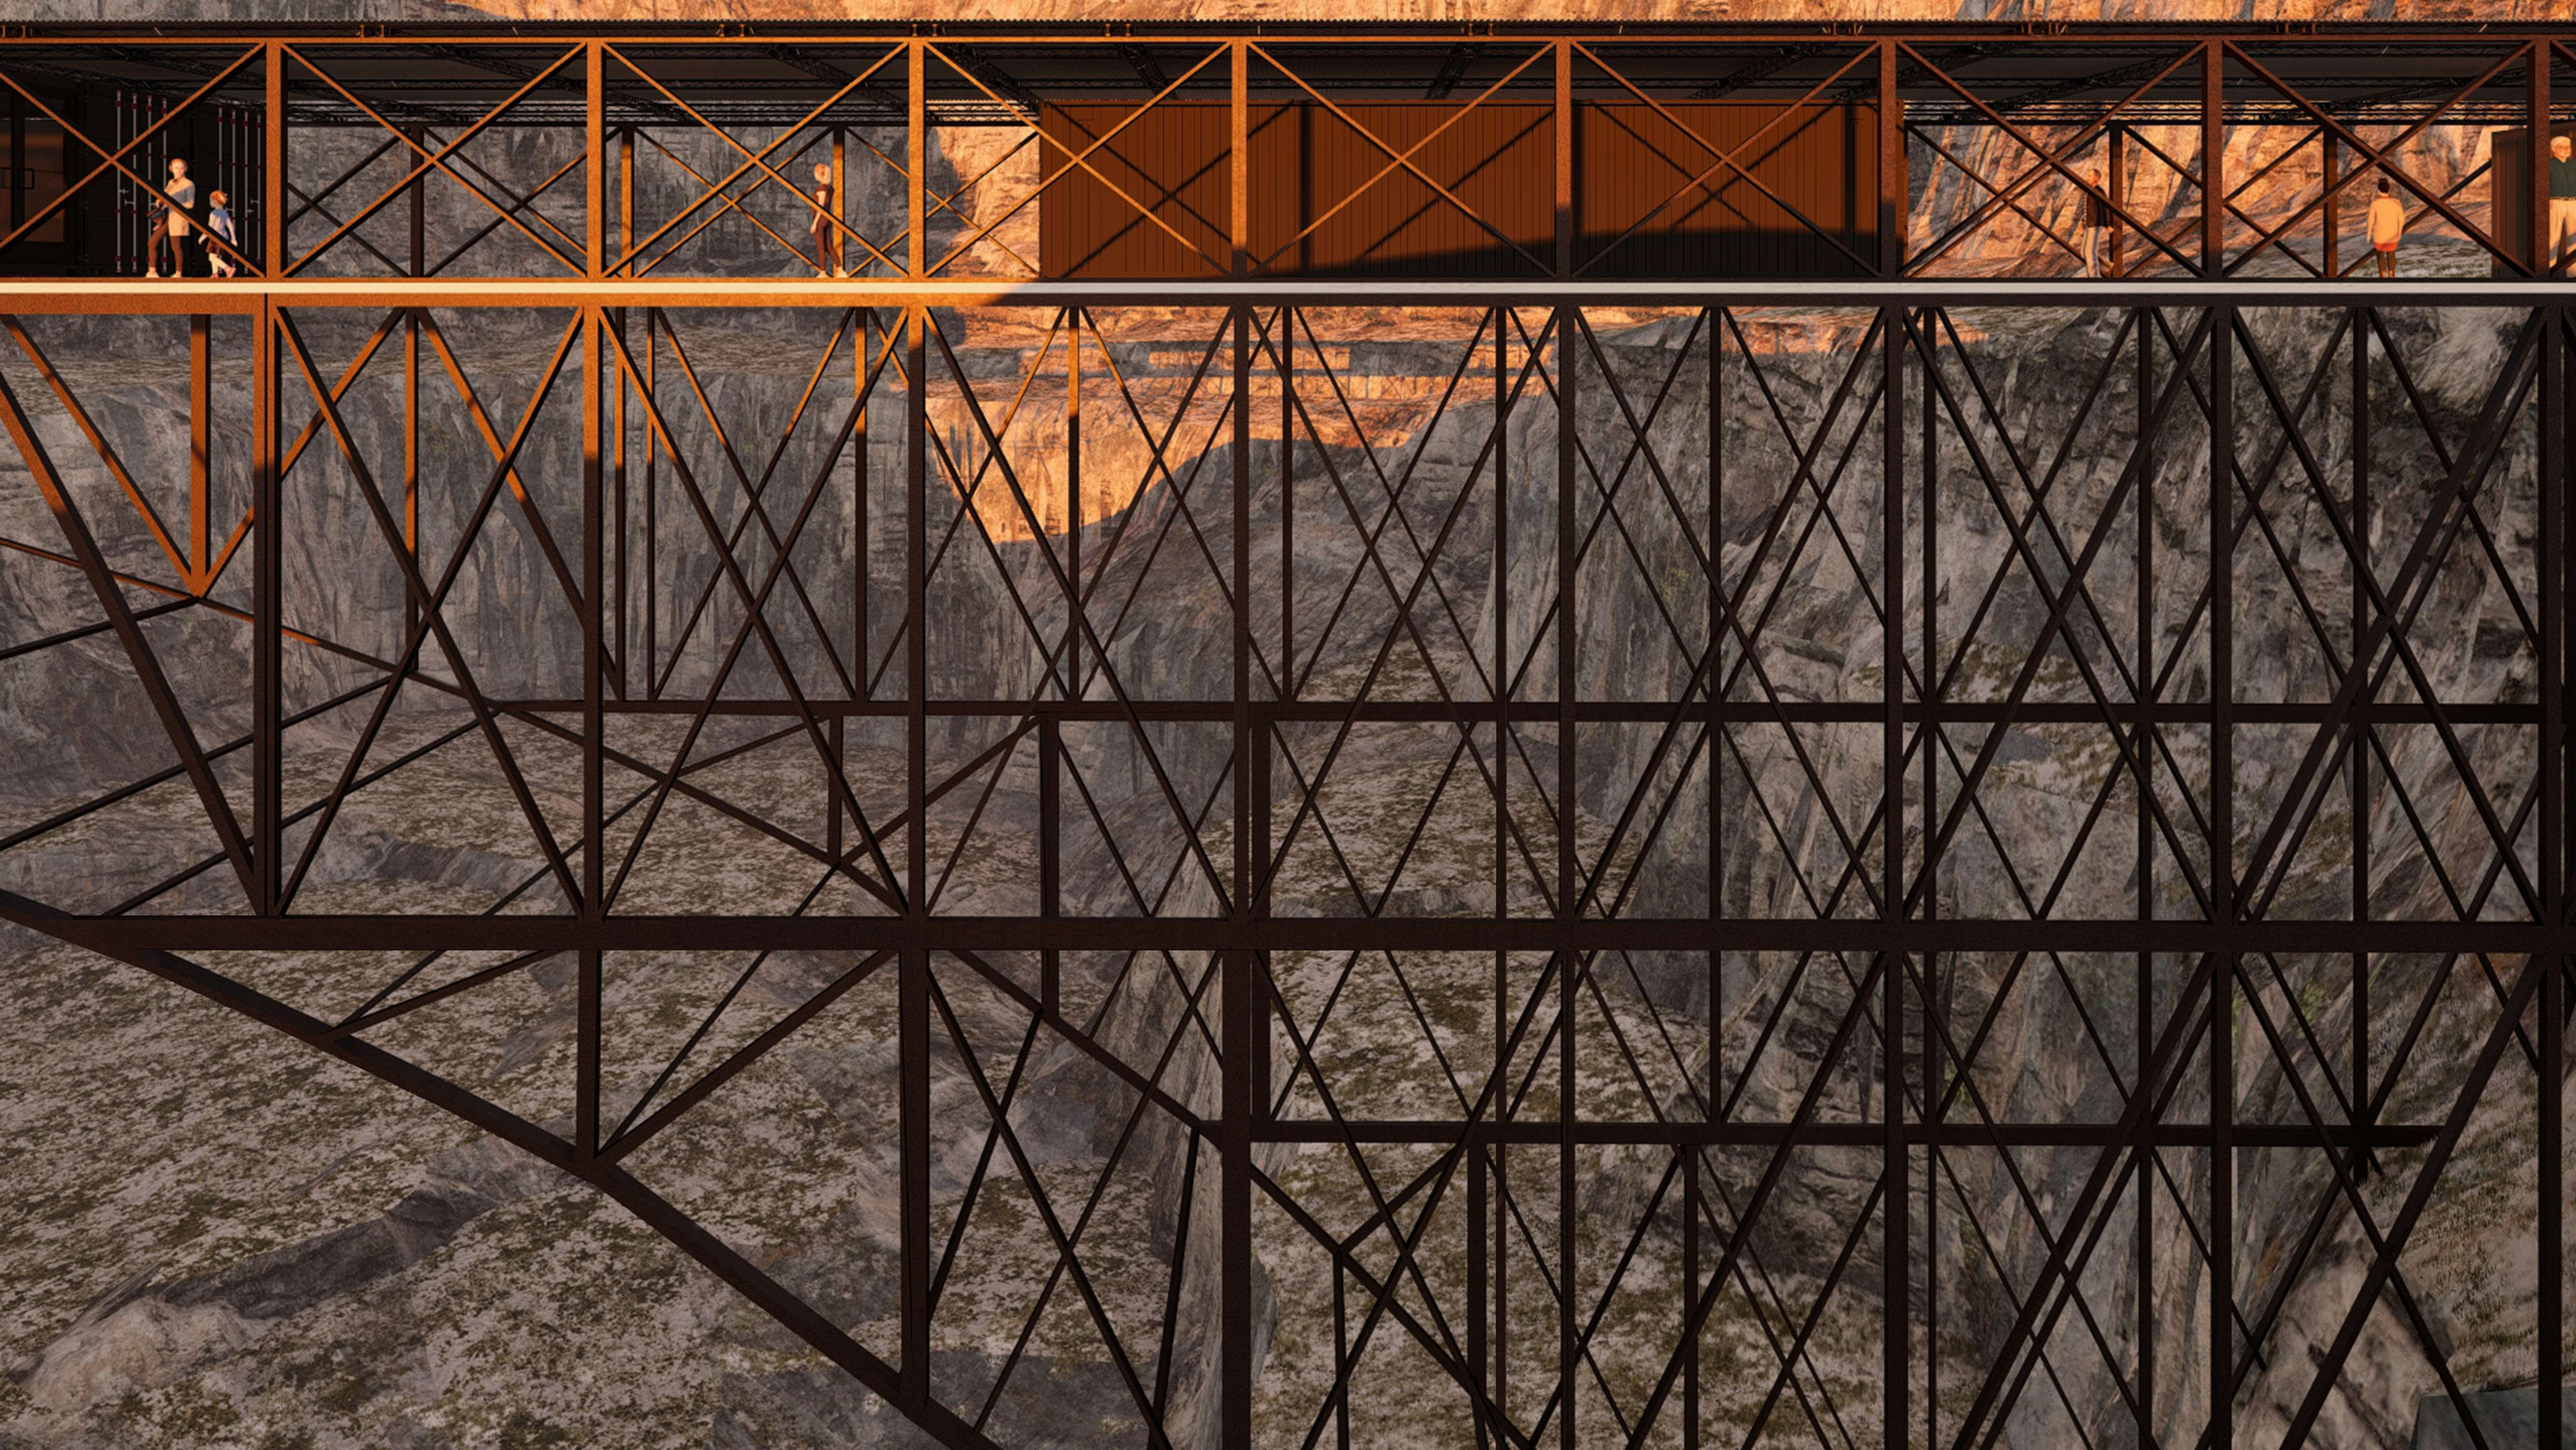
QUARRY SPAN - AD500

SEMESTER WINTER 2023-2024

AUTHOR VERDA MESIHOVIĆ

STUDIO SOUKENKA - TICHÝ - TŮMA

CONCEPT




A bridge connecting parts that were once connected, whose appearance is inspired by railway. Railway inspiration is due to its proximity to the location and the rails used in mines. From the bridge beautiful views can be seen towards the quarry and the river on the opposite side. The function is inspired by the minerals that make this quarry special, so the functions include: mineral museum exhibitions galleries, cafe, info desk/souvenir shop and toilets.
