STO-STO

ÚVOD

Takže cože to vlastně je to STO-STO? Dvě sta?
Ano, vtípek. Ale hlavně, je to spojení. Spojení
dvou slov i produktů. Stojan na vánoční
stromček a stolička pro všechny případy v
jednom šikovním balení.

CÍL PRÁCE

Kde že to máme uklizený stojan na vánoční stromek? Aha? Jak se tam asi má? A není to škoda, že čeká skoro celý rok na svých pár dnů slávy?

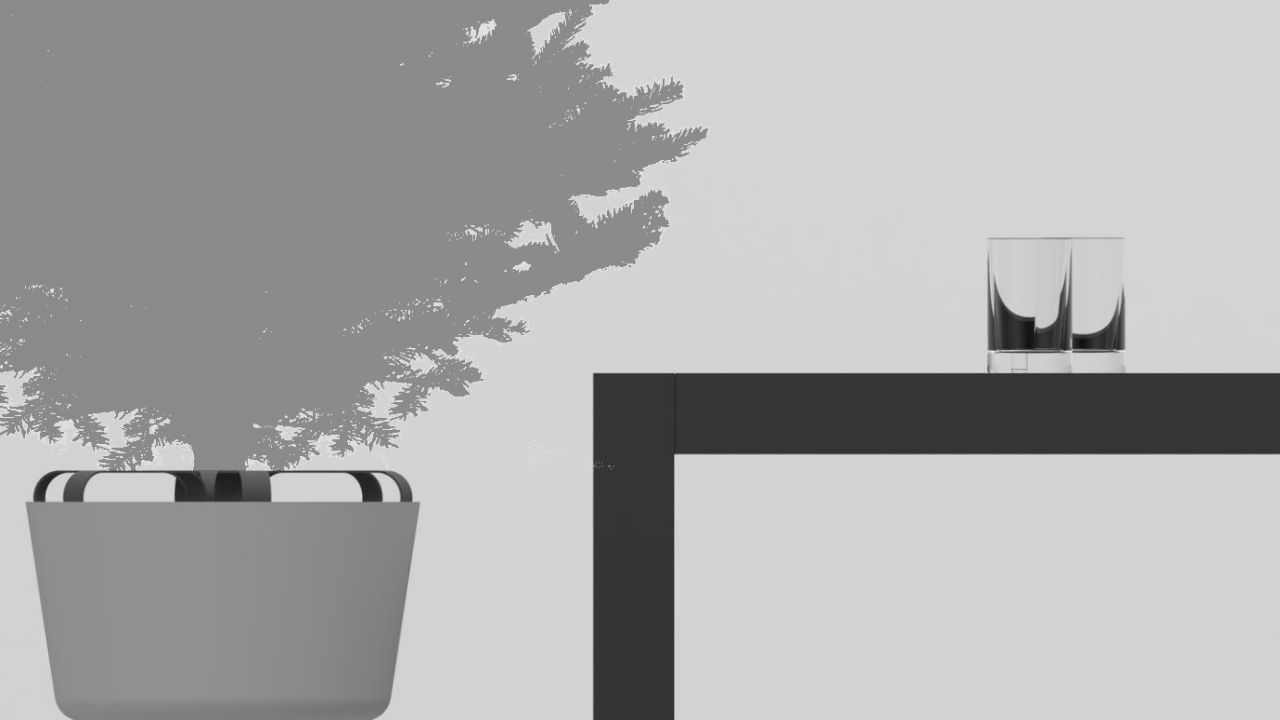

Mým cílem bylo vytvořit produkt, který použijeme nejen na Vánoce, ale třeba na společné hraní deskovek, na to, abychom dosáhli i na nejvýše položenou sklenici v kuchyni, prostě kdykoliv bude třeba.
