

MICHAL ZMEK **SADA NÁDOBÍ HELA**

Zadáním bylo navrhnout novou, inovativní sadu nádobí pro značku Remoska. Sada by měla obsahovat rendlík, kastrol, hrnec, vysokou a nízkou pánev. Měla by zaujmout cílovou skupinu této značky, jak estetičnem, tak i chytrými funkcemi a nápaditostí. Prim dále hraje též vyrobitelnost, přijatelná cena a samozřejmě skvělá ergonomičnost. Materiály byli dané výrobními technologiemi. Bylo možné navrhnout produkt jak z lisované nerezové oceli, tak i z lité hliníkové slitiny.
